						I am in favor of keeping the green space which was part of the original Belmont Center plan. In my estimation, the benefits of a community gathering space far outweigh a few parking spots. Besides, the process of scrapping the original plan at the last minute after years of planning because of a vocal minority is bad governance.

						The town should not make major changes to a plan formulated through years of study and approved by town meeting. Minor tweaks may be necessary, but this is too large a change to be approved without further study/consideration.
Andrea Prestwich	Belmont	Massachusetts	02478	United States	6/10/15	
						Walkability and green space are far more important than the car-centric mindset of the last century. Belmont Center needs to be a place that people want to spend time in, not get in and out of as quickly as possible.

						"Plan A" was the approved plan. It was an excellent plan. The last-minute substitution of another plan, which bypassed a multi-year town-wide process, by a small group to effectively undo the good works done by many people over many years is a shameful act and should not be allowed to happen.

Adriana Poole	Belmont	Massachusetts	02478	United States	6/11/15	The whole point of the original well-thought design was to have more green space and an area completely safe from cars. If it was doable I would have loved to see the whole Leonard St. become a pedestrian space, much like what happens on Town Day. The people who need to drive can access Belmont Savings Bank from Moore St. I hope we get back our much needed green.

Wendy Conroy	Belmont	Massachusetts	02478-3112	United States	6/11/15	I live on Channing, right near the center. I was delighted with the town center plans and how it improved the town center. I appreciated the thought and effort that went into the plan. The revised plan caters to just a few while ignoring the well constructed plans made with the input of multiple, qualified stakeholders. How is this reasonable or in the best interest of the town?
Anne Paulsen	Belmont	Massachusetts	02478	United States	6/11/15	I am signing because the original plan was forward looking and the petition was signed by many people who objected to the tree removal and were not signing because they wanted the cut through. Other people signed out of respect for Lydia Ogilby.

Walter Bishop	Belmont	Massachusetts	02478	United States	6/11/15	It is SO encouraging to read all these supporting statements. I assume this is going to the Selectmen asap. This drive for more pavement and parking spaces is so outdated and uninformed. The Center has more than enough parking spaces and there is handicapped access everywhere. The loss of nearly all mature trees was upsetting enough, then to lose most of the proposed additional greenspace was the last straw. Fight on, no time to lose. (incidentally, don't you love the dead tree on the sidewalk with the protective boards around it??)

Sue Bass	Belmont	Massachusetts	02478	United States	6/11/15	While I do sympathize with the people who love those angle parking spaces, I think the original plan was better.

Stephen Pinkerton	Belmont	Massachusetts	02478	United States	6/11/15	The recent action was taken with no apparent respect for the painstaking process that was followed to arrive at "Plan A" and without regard for the will of the majority of Town Meeting.

Mary Lewis	Belmont	Massachusetts	02478	United States	6/12/15	I'm signing this petition because "Plan A" was agreed to after years of study and citizen consultation and should not be able to be reversed by fiat. Plan A will create more green space, a safer Belmont Center, and one more conducive to social life and, yes, shopping (and therefore revenue).
Lucy Pullen	Belmont	Massachusetts	02478	United States	6/12/15	#N/A
Peter Dizikes	Belmont	Massachusetts	02478	United States	6/12/15	I'm signing both because a larger green space would be better, and because the last-minute decision to throw out the plan goes against the more democratic process Belmont used to approve the original plan in the first place.
Robin Whitworth	Belmont	Massachusetts	02478	United States	6/12/15	I don't like the process that led to this last minute change.
Martha Moore	Belmont	Massachusetts	02478	United States	6/12/15	Though I know I will miss the cut through (I use it frequently) , the consensus reached through the TAC process and the reconstruction plan approved by Town Meeting should prevail. It is puzzling that the the Selectmen thought otherwise, as it appears to disrespect the TAC process and hours of volunteer work as well as public input by Belmont citizens.
Nicole Dorn	Belmont	Massachusetts	02478	United States	6/12/15	I'm signing because I think it is not appropriate to make a last minute change to plan that went over a year-long review process and was already approved by Town Meeting. I also do not think the town needs more parking spaces; it needs more green spaces!

Joseph Rofino	Belmont	Massachusetts	02478	United States	6/13/15	A large green space was the single most appealing thing about the town center redesign. Please reconsider going with the original plan.

						I am angered to hear that Plan A was overturned at the last minute for Plan B, decreasing the size of the green space and surrounding it with traffic, just because of a small group of influential opponents. As a voting resident of Belmont, I am strongly in favor of Plan A, the focus of which is a large, pedestrian-friendly, green space.
						I feel that this last minute change from a plan that was already approved and supported by the larger community is completely inappropriate and does not represent the Belmont community as a whole.

Nancy O.
